PROFILE

An Information Systems student focusing on frontend development, experienced in designing engaging and responsive user interfaces using technologies like React and Tailwind CSS. Skilled in ensuring optimal application performance and possessing strong communication and teamwork abilities. Currently seeking internship opportunities to further develop technical skills and contribute to the development of innovative digital products.

EDUCATION

Bachelor of Science in Computer Science, Subang University   Sep 2022 – Present
- GPA: 3.68 / 4.00
- Attended programming workshop training
- Participated in and won 1st place in the student association competition
- Assisted in organizing the annual Tech Conference at Subang University

PROJECT EXPERIENCE

Sneakers Area (E-Commerce) Website   Feb 2024 – Jun 2024
- Led the development of an e-commerce website for a sneaker store, managing the project and overseeing the frontend development.
- Designed and implemented a user-friendly interface using React JS, ensuring a seamless shopping experience for customers.
- Integrated a NoSQL database using MongoDB to efficiently manage product inventory and user data.
- Developed server-side logic using Express and Node.js to handle user authentication, product listings, and order processing.
- Ensured the website's responsiveness and performance across various devices, enhancing user satisfaction.

Teaching Factory (TEFA) Website   Nov 2023 – Jan 2024
- Developed a website for an internet service provider focused on remote areas in the Subang district, handling both frontend and backend development.
- Designed and implemented user-friendly interfaces using Figma for UI/UX design, ensuring a seamless and engaging user experience.
- Created interactive component documentation and organized components using atomic design principles for maintainability.
- Ensured responsive design and cross-browser compatibility for all frontend interfaces using Bootstrap and custom CSS.
- Developed and optimized the backend using CodeIgniter 4, including server-side logic, API endpoints, and database integration with MySQL to handle user data and service requests efficiently.

TRAINING & CERTIFICATION

- **Frontend Web Development, Dicoding**   Nov 2023 – Dec 2023
  Modul: Introduction to HTML & CSS | JavaScript Fundamentals | Introduction to Frontend Frameworks | Frontend Performance Optimization | Responsive Web Design | State Management With Redux

- **Certified Developer, Alibaba Cloud**   Jan 2024 - Feb 2024
  Modul: Introduction to Alibaba Cloud | Cloud Computing Basics | Elastic Compute Service (ECS) | Object Storage Service (OSS) | Alibaba Cloud Security | Networking on Alibaba Cloud | Database Services

SKILLS

Languages: Indonesian, English
Frameworks: React JS, CodeIgniter, Bootstrap, Tailwind CSS
Programming Languages: HTML, CSS, JavaScript, PHP
Others: Programming, Web Development, Web Layout Design, Responsive Design, Web Performance Optimization, User Interface (UI) Development, User Experience (UX), Version Control (Git), CI/CD, Build Tools (Webpack, Gulp), Communication, Teamwork
